## Experience

---

### Sam Houston State University

Huntsville, TX

*Data Center Operations Specialist*

May 2025 - Current

- **Created a data model to support historical reporting that saved 5 hours a week** manually pulling and transforming datasets. It allowed stakeholders to easily view high-level telemetry data.
- **Reduced dataset errors by 12% by conducting queries** on a regular basis to ensure stakeholder data is accurate.
- **Collaborated with Systems Administration, Networking, Business Analysts, and InfoSec** to navigate long term plans for data center operations.

### Small Business Development Center

Huntsville, TX

*Business Analyst (Intern)*

Jan 2023 – Jun 2024

- **Introduced SAP software to reduce job tracking time by 30%.** This software allowed multiple users to view and support business operations without relying on an individual.
- **Coordinated data driven projects focused on cost reduction**, customer satisfaction, and user accessibility. The SAP software would greatly decrease product waste by coordinating similar jobs sequentially.
- **Presented finished product and deliverables to the stakeholders.** Thoroughly documented all research and decision-making processes for a final customer presentation.

### Men's Wearhouse

Conroe, TX

*Team Lead*

Sep 2022 – May 2025

- **Led daily business operations that increased conversion rate by 15%** by utilizing strategies that appeal to the customer.
- **Provided excellent customer service to customers** by listening and analyzing their needs.
- **Established expert in sales KPIs** by proving my knowledge behind what drives these numbers and how to affect them.

## Projects

---

### SmartPick Sales Analysis

- **Prioritized storytelling for stakeholders.** Recommendations were derived from the numerical insights and then presented in formal documentation.
- **Extracted insights for marketing, products, and finance teams** including revenue, order count, average order value, growth rates, and product distribution.
- **Created high level dashboard** focused on providing data to support executive level decisions.

### OList Sales Analysis

- **Listed recommendations based on insights and trends found from analysis.**
- **Created a dashboard focused on supporting marketing** by displaying important KPIs and metrics that used real time data.

## Education

---
